

Great weather, great day, great match!!

Mel took the gold for this match! (what a surprise) I know he would like to have done better, but he still managed a Master score while beating the entire field. Congratulations Mel!!!

No extra matches today and we tried to leave a 2-minute hot line after each target as an experiment to allow time to recoop or handle firearms before the start of the next string. I don't think we actually got the extra 2 minutes each target, but I also didn't see much enthusiasm for the extra down time so I have to ask, how many see value in having a little extra time between targets? Send me a note, just private message to this email, always trying to match the program to shooters wishes cause we are doing all this to have fun. Let me know what you think about the extra time(assuming we could do a better job of allowing that time). Also let me know how you feel about half-hour lunches vs. one-hour lunches.
